NOMENCLATURE

Cylindrical Roller Bearings

Basic Type

NU Separable inner ring, no thrust load capacity

NJ Separable inner ring, thrust load capacity in one direction

Roller Code

No Code: Standard rollers

R: Larger than standard rollers

Retainer Code

FY: Rivet type machined brass retainer

TY: Finger type machined brass retainer

200 Light Series

300 Medium Series

NU **205** **R** **C3** **FY**

Bore Size

For bore series 04 and above,
Bore Diameter = Bore Series X 5

Bore Series	Bore Diameter
03:	17 mm
04:	20 mm
05:	25 mm
10:	50 mm
12:	60 mm
18:	90 mm

Internal Clearance

C1 : Smaller than C2

C2 : Smaller than Standard

No Code: Standard

C3 : Larger than Standard

C4 : Larger than C3
