

**KOYO CORPORATION OF U.S.A.**

Koyo Corporation of USA is a manufacturer of precision ball and taper roller bearings used in the automotive industry. We are currently accepting resumes for the following opportunities at our Washington facility.

- **Maintenance/Electrical Technician-** Our plant seeks an experienced Electrical Technician/Maintenance for 3rd shift. This position will be responsible for programming automation and controls systems involving PLCs (programmable logic controllers), maintaining/troubleshooting electrical control systems including variable control drives and general maintenance duties. Must have at least 3 years experience in PLC logic programming and control systems. Must be able to create and read ladder and flow diagrams for program design, programming, simulation and testing, and start up. Mitsubishi and KOYO experience preferred but not required. The ideal candidate will have a proven track record in programming as well as the ability to develop and implement standard engineering practices, as well as provide detailed documentation upon project completion.

Koyo offers a competitive salary and excellent benefit package. For consideration, please forward your resume including salary history to:
